is now studying medicine

This very peculiar marriage notice, appearing at this late day, announces the marriage twice, within twelve months, of the same persons. To ascertain the reasons for this singular-or double-announcement an Evening World reporter called at the residence of F. Siegelstein. 97 Stanton street. Mrs. Siegelstein knew of no Pierre Siegelstein, she said. She had a son Adolf, who was studying medicine, but was positive he was not married.

Adolf was found by the reporter at Ottendorfer's dispensary, Second avenue and St.

Mark's place. He appeared much agitated when shown the marriage notice.
"Yes," he said, "I am the man. My name is Adolf Pierre. I was named Adolph Pesach, but

"I realized of course, that she nor her people were not good enough for me, nor as intelligent, nor as 'characterable' as myself, and so did my people, but after my marriage my parents decided not to have further objections.

"I know very well who caused this marriage motice to be printed, and thus make an 'uncharacterable' attack upon me. It was her sister. She has done this so that every one will know that I am married, and so that every one will know that I am married, and so that every one will know that I am married, and so that every one will know that I am married, and so that I cannot propose marriage to any other girl.

Adolf went on to say that he and his wife were now living at 11b Broome street, but that she was out at work. Her people, hie said, lived at 38 Pitt street, he believed, but he didn't have any intercourse with them.

The reporter them sought the bride's family, "Who put that notice in the paper?" replied Mrs. Joseph Silberman, who is Mary Bubis's sister and keeps a grocery store at 38 Pitt stored. It will, however, support Watersbury for Senator.

So saying, she led the way to 115 Broome street, where the young recopic lived. Mrs. Silberman explained that her sister was a cloak-maker at Caspary's on Broadway, and was then maker at Caspary's on Broadway, and was then at work.

The apartments consisted of two well-furnished rooms, into which the couple had moved a day or two before from Columbia street. Everything was quite new and the furniture was even elegant.

"See," said Mrs. Siberman. "Mary bought all this furniture and paid for it herself. When she was married she had \$2,000, and she has spent it all on him."

Continuing the sister said:

"Pierre has been telling around that he was not married to Mary, so I thought I would stop it. I didn't want people to think my sister was a bad girl, and I wanted every one to know that she was really married, so I just went and put that notice in the paper."

the slowness in building the monument, and the alleged dissatisfaction of the General's friends.

"Perhaps the most emphatic denial of such a rumor can be made by a little reflection.

"In the first place, the Monument Committee, which represents the citizens of New York, is not disputing over the General's body.

"It is simply organized to build a monument to Gen. Grant's memory, whether the body is here or not, and incidentally I may remark that we have enough now to build a monument which will surpass any ever erected to any man, as our fund now amounts to over \$130,000.

"Therefore the talk of removing the General's body on account of lack of patriotism in not erecting the monument is nonsensical, as the site for the structure has been laid in Riverside Park whether his remains are there or not.

"Another denial of the removal can be made by reproducing the letter written by Mrs. Grant on Oct. 18, 1885.

Mrs. Kroll, and the brother, he took the mad woman to the Leonard street station-house, where she was locked up on a charge of attempted suicide.

It was learned that Mrs. O'Brien met and was married to her husband about two years ago. The couple went to live in an east side uptown tenement. They could not get along happily from some cause, and about ix months ago she left her husband and returned to her mother.

O'Brien, it is said, paid her board for a few weeks, and then, after efforts at reconciliation had been frustrated, as Mrs. O'Brien's relatives allege, by her mother-in-law, the payments were discontinued, and she was left to her own reasources.

The feeling of helplessness and the sense of being wronged preyed upon the young woman's mind, and her relatives have feared that she would become insane. They have watched and cared for her tenderly, but this morning the cared for her tenderly, but this morning the climax came.

It is said, too, that after the battle the Hatfield party engaged in it hastened to the head-quarters of the faction, where, at a sort of rough court-martial, the McCoy prisoners were sentenced to be tied to trees and shot, the execution to take place to-day.

These prisoners include Peter McCoy, two men named Cain and one named Lambiein.

Detective Nugent was taking Borthiewitch up from the Old Slip police station to Folice Headquarters this morning to be arraigned before Inspector Byrnes.

They had travelled on the Third avenue Eiswated road to Houston street and were getting off on the uptown platform when the prisoner suddenly broke away.

The train had stopped and Detective Nugent started to get off.

Borthiewitch got up to follow him, but instead of doing so he turned around suddenly and ran to the rear of the car. Nusent followed him, but before he could catch the man he had opened the rear door and jumped to the road-bed.

Quick as a flash he slid under the rails, and, grasping an electric-light wire, dropped to the ground, landing in front of 287 Bowery.

Nugent missed catching him by a few seconds. The detective ran along the platform and reached the street in time to find the man lying helpless on the sidewall.

He had fallen twenty feet and struck on his knees. An ambulance was summoned and Dr. Primrose examined him. The surgeon found that he had broken his right knee-pan in several places and fractured his left foot.
